## THE PERAK SUGAR CULTIVATION CO., LD.

## ANNUAL MEETING.

The seventeenth annual general meeting of the Perak Sugar Cultivation Company, Limited, was held on the 17th inst. at Shanghai. Mr. W. V. Drummond presided, and there were present Messrs. W. D. Little, J. H. McMichael, C. J. Dudgeon (Directors), J. M. Young, F. Anderson, A. E. Jones, A. S. P. White-Cooper, H. King Hiller (shareholders), and L. Kerr (Secretary).

The Chairman said—Our annual meeting was called for the 25th day of last month, but for the reasons there explained we were unable to complete our business, and the meeting was subsequently adjourned until to-day. The Report and Accounts have been in your hands for about two weeks, and therefore you have had time to consider them, and with your permission we will consider them as read. The past season has been a moderate one, and there is little that I can add to the information already conveyed to you in the annual report.

With regard to the Klompang Estate, I may say that the machinery on that estate has worked satisfactorily throughout the season, though it has not of course been worked on anything like its full power. The Estate itself has paid its way during the year, and that is a satisfactory result for an estate in its first year. Turning to the accounts there is only one item which appears to me to call for any special remark, and that is an item showing an apparent loss of about £15,000 on rum.

The explanation of that item is this. When the accounts for the season are closed it is necessary as you are all well aware to estimate the value of all the property of the Company in order to make up the accounts completely. On the 31st August last year, when the season closed, there was on hand a stock of about 352 puncheons of rum. That was valued at 80 dollars a puncheon, which was the market rate. That included the rum on hand as well as a stock of molasses which it was intended to make into rum.

Shortly after that there occurred a very heavy fall in rum, and that fall unfortunately continued. The considerably reduced prices, and a certain amount of the molasses was not made into rum as intended before. The result of that is that in making up the accounts for this year we over-estimated the value of the stock of molasses last year about £15,000. There is not as actual loss on the rum itself, but there is an over-estimation of the actual value to be taken into account. I think I can add that such a fall is one that could not possibly have been foreseen. The rum in the previous year helped us very largely in the accounts and it must be expected to vary from year to year. With regard to one other item, you may perhaps notice that we have only written off about £15,000 for depreciation on plant, and that we have placed against new machinery of the Klompang estate.

It may seem to you that that was rather a small amount to write off, and that for in connection with the item I would like to mention to you a few facts. During the past eleven years, we have written off no less than £150,000 for depreciation on plant, machinery, and loss. During the same period we have spent out of working account £150,000 in repairs on machinery, plant, etc. The consequence of this is that we have to-day on the Gula estate, a very first-class plant and machinery, which stands in the books at about £150,000—equal to about £11,000. If we had had to replace that plant and machinery, it would cost us fully £100,000 and for that sum the present plant is now insured. With regard to the disposition of the Company's net profits during the past year, we have therefore proposed in the report to pay a final dividend of 7 per cent; to add to the Reserve Fund £15,000, making it up to £100,000; to write off depreciation £15,000; and to carry forward a very small amount. We trust that will commend itself to you as a very satisfactory result of what we cannot consider better than a moderate year. Our manager, Mr. Boyd, had nine months' leave during the past year, and during that time he has paid a visit home. During that stay at home he has been married, and he is due back on the estate with his bride early next month. Mr. Boyd joined the Company's service about 18 years ago, and he became full manager in the year 1896, which was, as you will remember, a very critical period in the affairs of the Company. Since that year the excellent results which have attended the working of the Company have been due to the management of Mr. Boyd, and the Board think this is a convenient occasion to make some acknowledgment of his good services. They therefore propose, with your consent, to give him a suitable wedding present, costing not more than about \$500. A new factory manager has been engaged by Mr. Boyd while at home. It was found absolutely necessary, with two estates to look after, at a considerable distance from each other, to secure an especially experienced expert factory manager to assist Mr. Boyd in the general work, and we took occasion of his visit home to authorise him to select such a manager. That manager is now on his way out to the estate with Mr. Boyd, and we therefore have every reason to hope and believe that there will be some very satisfactory results from his engagement. Finally, I may say that the Board are satisfied with the good work of the staff during the past year. There is nothing further for me to add to what you have already before you, but before concluding I shall be happy to answer questions to the best of my ability.

It was then proposed that a final dividend of 7 per cent, be declared, making a total of 12 per cent for the season ending December 30th, 1902. Adopted.

ASK FOR ASAHI JAPANESE BEER—G. G. Gault.

Mr. J. M. Young thought that \$500 was rather meagre for a wedding present for Mr. Boyd.

The following resolutions were then proposed:—

That C. J. Dudgeon be re-elected a director of the Company. Adopted.

That G. R. Wingrove be re-appointed auditor for this Company with remuneration at 250 taels per annum. Adopted.

That the next annual general meeting of the shareholders be held in December, 1903. Adopted.

A vote of thanks was then proposed to the Chairman and staff for the good work done in the past year, which was adopted, and to which the Chairman responded, thanking the shareholders for their kind remarks.

Mr. Anderson then proposed that a wedding present to the value of \$1,000, instead of \$500 as originally proposed, be given to Mr. Boyd on his return. Adopted.

The meeting then adjourned, after the announcement that dividend slips would be issued the day following the meeting.

ST. JOSEPH'S COLLEGE, HONGKONG.

OWING to the insufficiency of accommodation in the present building and the increasing demand for admission, it has been found necessary to extend the wings of the main building and to enlarge the Chinese department by an additional storey with two wings. The estimated cost will amount to over \$15,000. To cover these expenses we appeal to the liberality of all friends of Education. The establishment has been in existence for the last 25 years and is open to all classes. Much of the clerical work of the city is carried on by its past pupils. As this is the first time we have applied for assistance we expect a generous response. The names of our most liberal benefactors will be inscribed upon marble tablets, as a lasting testimony of their generosity. THE CHRISTIAN BROTHERS.

**The Hongkong Telegraph**

HONGKONG, WEDNESDAY, DEC. 24, 1902.

### WILL HONGKONG FOLLOW SINGAPORE?

In view of the reported decision at the meeting of the Committee of the Hongkong General Chamber of Commerce held yesterday afternoon that no action should be taken to effect a change in the local currency, we reproduce a leading article from the *Singapore Free Press* of the 18th inst., which will be read with interest by a large number of people following the question of the currency reform. In connection with the action of the Singapore Chamber of Commerce mentioned in our Straits contemporary the case for a gold standard is strongly made out for our sister Colony. Experts can now proceed to formulate schemes for the basis at which the change can be made. It will be a form of amusement, and so long as proper reticence is observed by the authorities, as to the rate of conversion, the means to be adopted to introduce the new currency, and the date of the conversion, no great harm will be done. One hope may be expressed—that the rate will not be greatly different from that current at the date of the conversion. That lesson at least must be learnt from the late action in Siam.

The *Free Press* expresses the opinion of the Penang Chamber of Commerce contained in the telegram which we publish elsewhere, that the "necessity" of a gold currency for this Colony, is one of the most important announcements that have been made in regard to the currency question. The Penang Chamber is "unanimous" that a gold currency is a "necessity." That is an emphatic expression of representative public opinion at the other end of the Colony. Equally emphatic was the expression at this end of the Colony when leading merchants, traders, property owners and professional men (European, Indian and Chinese) signed the petition presented to the Governor a week ago, also in favour of a gold currency. That His Excellency went to the Colonial Office. Of still more moment is the announcement that we are able to make upon good authority, that the Committee of the Chamber of Commerce of Singapore, having completed the compilation of figures bringing up to date the statistics quoted in the report of 1897, has decided to address Government recommending the adoption of a gold currency, practically on the lines of the report of the Committee in 1897, viz., the British sovereign as the basis of our currency, with a Straits dollar subsidiary to it. The public will look forward with interest to the report of the Committee of the Chamber, which will doubtless be published in due time. We may assume that the argument that if the dollar dropped down to 60—if it were possible—this would still be to the advantage of the Colony, has not had any weight with the Committee, for the reason that from the year 1897 to the year 1901, during which exchange was practically stationary at about 1/12, the dollar value of our trade increased by nearly 30 per cent. A falling dollar had not in this period, as alleged, the effect of increasing trade, because in this period the dollar did not fall in value. The increase was due to natural expansion and a participation in the general trading prosperity of the world. The decline in the dollar from former values of 4/3, 3/6, 3/4 and so on was beneficial to producers, but not to consumers, and a point is reached when obviously any further decline is disadvantageous. We take it that the Committee are in accord with the general public opinion that that point has been reached, when the dollar is at 1/7, with the prospect, upon the opening of China by foreign capital—all her hordes of labourers and her stores of mineral wealth, believed to contain much silver—of a further decline in the value of that metal. On a stable rate of exchange from 1897 to 1901 our trade largely increased. On a stable rate of exchange in the vicinity of 1/8 there can be no reason for supposing that our trade would be less prosperous. Those opposed to fixity have always advanced the silver basis of Siam as a reason for keeping silver for the Straits. That reason no longer exists. Siam is on a gold basis, and although the change has caused a considerable amount of dislocation of trade—the exact amount we are not in a position to judge, but believe it is not sufficient to endanger the scheme, the weak point of which was the difference between the rate current and that sought at first to be fixed—Siam will adhere to gold. The Philippines will undoubtedly come under gold, cost what it may. Except China, then, where is our large silver trade to come from? The coolies have

benefited? Doubtless, but the coolies have to pay vastly more for their living now than they did, and the low rate has not been all advantage, nor a continuing advantage. These arguments must have impressed the Committee of the Chamber of Commerce, and it will be a source of satisfaction to those who ardently desire to see a trade placed on a basis in which "speculation in exchange bears no part," to know that the two Chambers of Commerce have spoken with emphasis on the "necessity" for fixed exchange.

### LOCAL AND GENERAL.

**CHRISTMAS, MERRY CHRISTMAS.** has come again shedding its benign and joyous influence over the world. We take this opportunity of wishing our readers and the community at large the compliments of the season and intimating that the *Hongkong Telegraph* will not be published to-morrow or to-day.

Bring your Kodak to LeMunyon's and let him load it with a fresh roll of film. —*Advt.*

**THE ENGLISH MAIL** of the 22nd November was delivered in London on the 20th inst.

**A CORRECTION.**—The Orchestral morning service to-morrow will be held at St. Joseph's Church instead of at the R. C. Cathedral as stated in our issue last night.

**COAL LIGHTER SUNK.**—Whilst a coal lighter laden with about two hundred tons of coal was lying alongside the steamer *Italien*, it suddenly capsized. Fortunately no lives were lost.

**FOOTBALL.**—On Saturday afternoon next in the first round for the Hongkong Football Challenge Shield the Hongkong Football Club will play H.M.S. *Glory*. Kick-off at a quarter to four. Mr. Triggs will officiate as referee.

**W.O. S. SGT., & SERGTS. DANCE CLUB HONGKONG.**—The Hon. Secretary wishes to inform members and friends that there will be no practice dance this week, but that the practice dances will be resumed on Friday, 2nd January, 1903.

**CHINA-JAPANESE BANK.**—A bill for the establishment of a China-Japanese bank to have a capital of Yen 20,000,000, has been submitted to the Japanese Diet. The purpose of the bank is said to be the loaning of money for mining and railway operations in China.

Call at LeMunyon's New Store and look over his pretty selection of Kodaks, Albums, Picture Frames, Card stock, etc. —*Advt.*

**ALLEGED ARMED ROBBERY.**—Early yesterday morning three Chinamen entered a matshop at Wong-Nai-Cheong, and tied up its owner (a young woman) and then made off with everything of value. No arrest has yet been made, but the police are investigating the matter.

**XMAS HOLIDAYS.**—On Christmas day, and the 26th inst., the Post Office will be open from 8 to 9 a.m. only. Correspondence for local delivery on those days may be posted on the 25th inst. but will be left open during the time the office is closed. The Money Order Office will be entirely closed on both days.

**ITS OFF.**—The Raja of Sarawak has issued an order to the following effect:—"The habit of wearing caps and hats of European shape and manufacture having become general amongst Natives of all classes; I hereby direct that any Native wearing such a cap or hat shall remove it from his head upon entering any Government offices or buildings, or when addressing any European officers." A very proper order too, observes a contemporary.

**PRIZE FIGHTING IN PHILIPPINES.**—There will be no more prize fighting in the Philippines. The Commission recently passed an act making it illegal to have any connection with such contests either by participating, training, sending, receiving or carrying a challenge or, in short, having any sort of dealings with reference to boxing contests. The law is very sweeping in its provisions and provides a liberal penalty for violation which amounts to \$2,500 gold or one year in prison.

**DEATH OF MRS. G. J. W. KING.**—It is our sad duty to record the death of the wife of Mr. C. J. W. King, land bailiff, which took place last night at her residence in Caine Road. The deceased had been ailing for some time and although a few weeks ago she exhibited signs of recovery, she expired last night as stated. The late Mrs. King had a large circle of friends, and by her geniality was a favourite with everyone with whom she came into contact. The funeral, which took place this evening, was largely attended. Many beautiful wreaths testified to the esteem held by her numerous friends. Great sympathy is felt for Mr. King and his four daughters, especially with Mrs. Mathiesen, the eldest daughter, who was only married about three weeks ago.

**THE CHINGTU CASE.**—The case in which Archibald Kerr and Charles Pengelly were arraigned on the charge that on July 1, 1902, upon the high seas, and on board the British ship *Chingtu*, they did feloniously and maliciously murder Lai Heng, was heard at Sydney on the 24th ult., both men being discharged without the slightest stain on their character. Chiang Yuen, Qwan Fat, and Wong Long were afterwards charged with having, on August 8, between themselves, conspired together falsely to charge and accuse Archibald Kerr and Charles Pengelly that they had then lately before feloniously and maliciously murdered one Lai Heng. Cheng Yuen was sentenced to five years' penal servitude; and the other two prisoners to three years' imprisonment.

**COTTAM & CO., FOR PANAMA HATS.**

**COTTAM & CO., FOR TRESS'S STRAW AND FELT HATS.**

Send your mail orders to LeMunyon, N. P. O. Box No. 331. He will attend to them promptly. —*Advt.*

**N. Y. K. COAL.**—Owing to the falling-off in the quotations for coal, the Nippon Yusen Kaisha has been able to contract with the collieries for a supply of coal for next year's consumption by the company's steamers at a price: Yen 250,000 less than that usually paid. —*Nagasaki Press.*

**A REPORT OF AN EARTHQUAKE** at Poochow on 21st November, at 3.15 p.m., corroborates the impression of some few specially sensitive people that there was an earth tremor in Amoy also, for the date and time correspond exactly, but as it was so slight it probably escaped notice.

**THE CHOLERA AT MANILA.**—In reference to this subject brought before the Sanitary Board yesterday and reported in our issue last evening it was decided, on the proposition of the President, seconded by Mr. Osborne, that the Board recommend the Government not to rescind the proclamation and to continue the inspection of ships arriving from Manila.

Hello! Central!—Give me No. 397—Yes—Hello! Is this Mr. LeMunyon's New Store? Yes—Boy will bring a roll of film to you this a.m. and kindly have them done to-night. —*Advt.*

**HONGKONG STEAMER REPORTS DERELICT.**—The steamer *Indra*, Capt. Easterbrook, arrived from Manila yesterday and reports fresh to strong monsoon with heavy sea and swell. On Monday she picked up a boat floating bottom upwards without name or distinguishing mark. It had apparently been in the water some considerable time, there being a quantity of barnacles and sea grass on it. The bow and stern were damaged.

**THE FRENCH MAIL** of Nov. 29 will be brought from Colombo in the N.Y.K. steamer *Sanki Maru*, due here early next week. This is the mail brought out from Marseilles by the Orient Line steamer. The *Caledonian* will wait at Colombo the arrival of the *Armand Behet*, which was delayed by the strike at Marseilles, and will bring on a supplementary mail and passengers. The N.Y.K. steamer is very proud of their designation "Imperial Japanese Mail Steamer." The bringing on of the European mail is a justification of the title.

**REVOLUTIONARY RUMOURS IN PEKING.**—Alarming rumours are current of a plan which is said to be on foot in the Palace at Peking to do away with the Emperor and substitute Yung Lu's princely son. In-law. Yung Lu is, according to this story, growing nervous at the prospect which comes daily nearer of the Emperor's Dowager's gradual retirement from active control of affairs, owing to her old age, and does not like the contemplation of his being put into the background should the Emperor's death occur. "Sooner or later there will be a great struggle of parties, and the present state is probably a mere anticipation of it. Not much importance is to be attached to the talk of the Peking tea-shops in matters of fact, but some note may be taken of the general political uneasiness which is the fertile source of origin of these rumours. —*China Times.*

Mr. LeMunyon has new store at No. 31 Des Vaux Road and is now prepared, photographically speaking, to do any work in this line that may be brought to him. He guarantees his work to be strictly first class in every respect. Make him a call for I know you will be well pleased with results. —*Advt.*

**DEATH OF "BLACK MARY."**—Many a poor sailor far away from Shanghai will feel a pang of genuine regret when he learns that Mrs. Mary Berry, better known here as "Black Mary," is no more, says the *Shanghai Mercury*. She was a black woman with a white heart if ever there was one, and during the long period of her residence in Shanghai, extending we believe over some 35 or 40 years, it is safe to say that she never refused a sailor a meal, or a drink for that matter, when he wanted it badly, and Mary could possibly provide it. Many and many a hapless and destitute beachcomber has Mary fed and sheltered without a thought of payment or reward, and innumerable are the acts of quiet, tactful kindness towards her poor neighbours recorded to her credit in Hongkong, where she dwelt for so many years. Every old resident of Shanghai knew her at least by appearance and reputation and all who knew her will regret her. She was a native of Alabama, U.S.A., and was well past her sixtieth year.

**ALLEGED EMBEZZLEMENT OF \$2,000**

FROM HONGKONG CHAMBER OF COMMERCE.

M. H. Baptiste, clerk to the Hongkong Chamber of Commerce, was charged before Mr. J. H. Kemp at the Police Court this morning with stealing from the Hongkong Chamber of Commerce, certain goods to the value of \$138.83, on 23rd January, 1902, and on other occasions the sum of \$1,163.84.

Mr. Looker, of Messrs. Deacon and Hastings, prosecuted on behalf of the Chamber of Commerce and Mr. F. X. d'Almeida, C. S. defended.

### HONGKONG PUBLIC WORKS.

#### ANNUAL REPORT.

In presenting his report for 1901 the Director of Public Works (Hon. W. Chatham) states:—"I have the honour to forward you my report upon the work of the Public Works Department during the year 1901. I regret that it should be so late, but the delay has been chiefly due to the special demands made upon my time during the current year by the visit of the Sanitary Experts, the measures which had to be devised to tide the Colony over the exceptional drought, and the preparation of new Building and Water Works Ordinances and Regulation. In addition to these, there have been several important matters of an exceptional nature under consideration, including the Praya East Reclamation Scheme, the resumption of the site for the new Post Office, estimates for schemes proposed by the Sanitary Experts, some important schemes for road improvements at Quarry Bay and Kowloon, etc.—all of which have combined to make the past year an exceptionally busy one." From it we take the following extracts:—

**DREDGING FORESHORES.**  
Comparatively little work was done under this heading during the year, in consequence of the dredger, whilst on hire in connection with the raising of the hopper dredger *Canton River*, having been sunk in the harbour on the 2nd March. The vessel and crane were successfully raised, and, after undergoing thorough repairs at the hands of the Dock Company, resumed work on the 16th September. The dredger was subsequently hired to the Military Authorities for a period of four weeks in connection with the construction of a pier at Chong Lui near Devil's Peak. A commencement was made, towards the end of the year, with the removal of debris from the Bowring-ton Canal.

**MAINTENANCE OF ROADS AND BRIDGES IN CITY.**

The surfacing of macadamized roads with blue stone metalling, which was introduced in 1898, was discontinued in consequence of this material having proved to be unsatisfactory, and considerable quantities of it were taken up and replaced with grey granite. The blue stone, being exceedingly hard, appeared to resist the wear of the traffic, which is mostly of a light nature, whilst the material in the interstices between the stones wore away or was washed out by rainstorms, with the result that a very uneven surface was produced. The failure of this material, which had been laid down on most of the principal thoroughfares, caused a large expenditure in order to restore the roads to a satisfactory condition of repair. Considerable difficulty was experienced in obtaining a sufficient supply of labour, which was doubtless due, in some measure, to the recurrence of plague during the year. Towards the close of the year an improvement had been effected in the condition of the principal roads.

#### NEW LAW COURTS.

The contract for the construction of the foundations up to ground level was in progress during the year. In order to admit of the work being carried on, the Praya Reclamation Office had to be taken down, being rebuilt on a new site to the north of Queen's Statue. A marked reconstruction of the more permanent building. A portion of the old Praya wall, which crossed the South-east angle of the site, had to be demolished. It had been anticipated that piling would not be required over this area, but some trials showed that a layer of soft mud occurred a few feet below the foundation of the old Praya wall and piling was accordingly resorted to. Up to the end of the year 1,148 piles had been driven, and a large proportion of the cement concrete foundations and granite footings had been put in.

#### JUBILEE ROAD.

Though practically unconnected with the Public Works Department, it is desirable to place on record the fact that the construction of the Jubilee Road from Kennedy Town to Aberdeen was begun in May, the work being placed under the care of Messrs. Denison, Ram & Gibbs. In accordance with the arrangement originally made, it ought to have been carried out by the Public Works Department, but, owing to insufficiency of staff, this could not be done and the Jubilee Committee therefore entrusted it to the firm mentioned. Good progress had been made with the work before the close of the year. The reasons of the delay, amounting to some three years, in the starting of the work, have already been made public and it is unnecessary to recapitulate them here.

#### JUBILEE HOSPITAL.

As originally proposed, the carrying out of this work was decided by public competition and, though the proposals upon which the competition was based were entirely abandoned, Messrs. Palmer & Turner, whose design had been selected, were appointed architects for the buildings. The formation of the site above Barker Road, which had been begun in 1900, was completed and the construction of the buildings was undertaken and had made considerable progress by the end of the year.

### THE WALDORF CO. AT CANTON.

Our Canton correspondent writes, under date 23rd inst.:—"Last evening the galaxy of first class talent brought here by the Janet Waldorf Company, proved its superiority to any of the artists that have visited Canton. The *Lady of Ques* was placed on the boards of the Canton Club Theatre and from the rise to the fall of the curtain the house was kept amused. This thrilling piece, which centred round the exhibition of a cinematograph has been described in your columns, and the praise then given the actors and actresses was again earned on this occasion. If any particular part is worth special mention it would be the delineation of the 'arriere de la cour' by Mr. Noval McGiegar, which will be long remembered."

### ARRIVALS.

After a somewhat long absence from the Colony in England, the German Mail steamer *Peter's Irene*, the familiar figures of Dr. Paul Jordan and Mr. A. G. Morris, both of whom are welcomed back by their large circles of friends. We mention last but by no means the least distinguished name of Sir Paul Chater who, while in the old country, deservedly received at the hands of His Majesty the King the distinction of knighthood for long and meritorious services rendered in and for the benefit of the colony of his adoption. This is not the time or place to enumerate the many and important public schemes originated by, and carried out under the guidance of, Sir Paul; but with his return the hope may be entertained that the Eastern Reclamation will soon see a start and the vexing problem of the currency receive consideration at his able hands.

### HONGKONG IN CHRISTMAS GARB.

With the advent of Christmas in this far Eastern Colony, the various hotels and places where friends congregate to wish each other the season's greetings, have assumed their Christmas garb. The Hongkong Hotel, especially the commodious refreshment stall, is one mass of evergreen whilst the pillars are garlanded with floral decorations. The entrance is also well decorated. The Connaught House is another sight worth seeing whilst Thomas's Hotel, which by the way recently changed hands and is under an entirely new management, stands out most prominent in the line of floral decorations. King Edward's Hotel not to be beaten is profusely decorated, whilst the stately New Victoria Hotel vie with her sister hotels in the matter of decorations. Going down West, one also notices the various saloons and taverns have donned on their "Xmas" garb, while in the Eastern District, commencing with the Soldiers' Club, the various saloons are also profusely decorated.

Wyndham Street this morning presented quite an animated scene. The flower sellers seem to have done a roaring trade with their flowers, and one cannot help but being struck with the hum of a busy city especially when one comes across coolies either carrying good things or elbowing themselves amidst the crowd with evergreens destined to decorate some private house. The various warships in the harbour are also making preparations to decorate the masts and yards of the ships, and the "handy man" is to be seen rushing hither and thither with parcels under his arms. Near him is Tommy Atkins making in the direction of his quarters piled with things of good cheer either for his mess or his quarters.

### THE DISBANDED HONGKONG REGIMENT.

#### TO BE RE-DRAFTED INTO THE INDIAN ARMY.

We are glad, says the *Pioneer*, to see that the services of the Native officers and men of the Hongkong Regiment, now being mustered out at Jelum, will not be lost to the State. Those who elect to take their discharges altogether will receive pensions or gratuities, together with deferred pay or gratuity authorised in lieu thereof, a railway warrant will be granted from Jelum to the station nearest their homes for themselves and families. Those who wish to join the Indian Army will be allowed to reckon all former service for good-conduct pay and pension, but will have to forego all claim to pension, or gratuity under the terms of the Royal Warrant which governed their original enlistment. As to the various classes, Punjabi Mahomedans, up to the establishment of four companies, will be allowed to volunteer, in the ranks they held in the Hongkong Regiment, for the 9th Madras Infantry now being reconstituted at Bangalore; Ranghars, to the strength of one company, will be permitted to join the 5th Bengal Infantry now at Silchar; Yusufzais, Khatkats and other Pathans, as well as Hindustanis and other classes, may re-enlist in any battalion of the Indian Army, or in the reserve of any such battalion. All these volunteers will be given kil-money as for recruits at the rate of Rs. 30 per man; and before joining they will be granted special furlough for four months on full Indian rates of pay, with free passages by rail afterwards to the headquarters of the regiments in which they have elected to serve.

### THE WEATHER.

The following report is from Mr. F. G. Figg, Acting Director of the Hongkong Observatory:—  
On the 24th at 11.40 a.m. The barometer has fallen generally particularly in the North. Pressure remains high over Central China, but there are indications of the existence of a low area over Man-hua.  
—Moderate monsoon on the China coast strong monsoon over the N. part of the China Sea.  
Forecast—moderate N. winds; fair.

## THE KWANGSI REBELLION.

(From Our Correspondent.)

CANTON, 22nd December.

Great activity prevails in Canton military circles, owing to the very serious trouble the rebels are now giving. All the soldiers in the Pakhoi district are engaged and the drain is so seriously felt that the Viceroy of Canton requested that the Black Flags be sent to endeavour to suppress the Rebellion. This request, however, was refused, the excuse being that if any trouble occurred about Canton these were the best soldiers available. Yet seeing the rebels were getting even more audacious by their recent successes something had to be done and it was decided to send 1200 of Mr. Li's men. Admiral Lee Beau of H. I. V. S. *Fuk P'oh* when in correspondence and treaty with Messrs. A. R. Marty Co. of Hongkong with regard to the transportation and it was on Saturday last decided that they would supply boats to take 600 men each at an early date. The first detachment of 600 will commence embarking to-morrow on the s.s. *Hongkong* which leaves Hongkong for Canton to-night, and will anchor below the Macao Forts.

Detachments of soldiers still continue to be sent up the West River but their destination is kept secret.

[A representative of the *Hongkong Telegraph* interviewed Mr. A. R. Marty in Hongkong this morning. He verified these statements regarding the s.s. *Hongkong* being employed by the Chinese Government and informed us that the vessel left Canton for Pakhoi direct with 600 troops at noon yesterday.]

DESPATCH OF TROOPS. A late despatch from Canton states that the Acting Viceroy of Canton, after a long consultation with the Hoppo, and Admiral Ho Cheong Ching, has given orders to Lin Ying Fo, the Black Flag chief, to immediately raise three thousand of his troops and proceed with all haste to the borders of Kwai Chow, where the rebels are reported to be in great numbers. Admiral Ho has also been warned to keep his troops in readiness.

## TIENTSIN DAY BY DAY.

(From Our Own Correspondent.)

TIENTSIN, Dec. 8th.

## PILGRIMS RETURN.

Messrs. Carvill (H.B.M. Vice-Consul) and Mr. R. K. Douglas (of Messrs. Wilson and Company) have just returned from their long pilgrimage to Kuk-nor, which was taken on behalf of all the foreign merchants here who lost so heavily in 1900, by reason of their cargo not coming down, for which money had been paid. It is said they have not only been very successful in their business, but have had a most unique experience. I have not yet been able to glean any particulars of their journey beyond the brief statements which have been from time to time published, but I hear they did the last few hundred miles on foot, and suffered a good deal from cold. When they entered Peking they are said to have been scarcely recognizable, with long hair on their shoulders, and long beards, as of course they had met with no conveniences in the barber line, and they must have closely resembled Russian Priests.

An Edict has appeared confirming the reported appointment of Wei Kwang-ino, a Hunan man and a soldier, to the viceroyship of the Lang-Kiang in succession to the late Lui Kun Yi. Nothing is known of him up here except that at one time he was successful in suppressing one of the many Mohammedan risings in Kansuh. The Edict also creates him superintendent of Southern trade. It is said the appointment has given a great pleasure in Peking official circles.

## CAPTURE OF REBEL CHIEF.

The rebel chief, Teng Lai-fung, who has been making things lively at Jehol for so long, and who was recently captured by Ma Yu-kou, is to be executed at Jehol and not brought to Peking as first proposed. There is a large family of the Tengs and it is not likely that the death of this man will end the trouble. In the whole region of the north and throughout Manchuria brigands and lawless tribes abound, and are likely to do so. The Russians have disarmed the peaceful Chinese, and for some reason make little or no attempt to deal with the brigands unless their own safety at certain points makes it compulsory. As they are supposed to have "vacated" Manchuria it is presumably impossible for them to do any thing, but from the general attitude of the world I should suppose that it rather suits their purpose having the brigands there. They possibly counteract any tendency to collective movement which might otherwise show itself on the part of the Manchus.

## JUNG LU STILL SICK.

Jung Lu is still sick and, rather worse by latest accounts, though before the present cold weather set in he was thought to be improving. It is not stated exactly what is the matter with him, but he is said to suffer great pain in his leg, so that it is probably gout or rheumatism. Kwei Chu, the "degraded" ex-Governor ofzechuan who is Jung Lu's uncle, is living very comfortably in Peking and it is generally thought he will have some good position given him, if not because of his anti-foreign proclivities certainly in spite of them. He is a bit of a hero with many of the officials and poses as rather an authority on "the foreigner." He regards us all as hungry beggars hanging round the rich man's heels, and that we have absolutely no desire which cannot be gratified by a sufficient number of dollars.

## SU ZOR SIBERIA?

There is keen rivalry between the old and new postal routes, some marvellous trips having been made by letters coming via Siberia. But it does not always come out right as many letters have taken over two months via Siberia as against five to six weeks by the old route. Personally I favour the old way, and prefer the risks of the sea route, Shanghai and Hongkong post office are included to the unknown dangers of the overland. It is quite the fashion now for people to post test messages both ways to see which arrives first.

## THE AMERICAN ASSOCIATION AND CURRENCY.

In the recently issued report on the Executive Committee of the American Association of China for 1902, appears the following:

The question of chief moment, in its immediate effect on our trade relations with China, is the continued decline in silver, the depreciation now amounting to about twenty per cent as compared with the ruling value at the beginning of the year. The derangement in values which has followed is disastrous to business in imports, and it is difficult to forecast the ultimate outcome of existing conditions. At the moment the import business has been checked and is almost paralyzed, as the rise in silver values does not keep pace with the increased cost of merchandise at the present adverse exchanges.

Should there be a further fall in silver, or no recovery from its present low price, it is not improbable that imports into China will materially decrease, as the silver cost, especially of all textiles, has reached a point which it is believed places many classes of fabrics out of the reach of the masses, who are the chief consumers.

A condition such as this presents a most unsatisfactory prospect to Western manufacturers who have been looking to China for increased, not decreased, purchases of their merchandise.

Every business man who has commercial relations with China of course wishes to see the trade of this Empire expand, both in imports and in exports, but in any discussion as to how that expansion shall be effected so many complex questions arise that your Committee hesitates to make either argument or suggestion.

A happy adjustment of the difficulties which threaten may come through the natural laws of trade; but the fact can not be overlooked that the present value of China's annual imports exceeds the value of her annual exports by fifty million taels, and in searching for her ability to equalize that debit balance nothing satisfactory is discovered but the early development of her great mineral resources.

The payment of the indemnity to the Foreign Powers has given opportunity to the officials to collect by extortionate taxation, three and four times the amount of money actually needed. This may lead to serious consequences affecting both mercantile and missionary interests. There can be little doubt of China's ability to pay the indemnity, but the difficulty arises from the incidence of the taxation.

It does not fall in the main upon those able to pay, but upon the poorer classes of the people. In the less prosperous provinces and districts of the Empire it imposes a heavy burden upon an already impoverished peasantry. Thus it excites dissatisfaction, and engenders an anti-foreign spirit in the populace. We do not call in question the justice of this form of punishment, but we would call attention to the fact that it is not easily recognized by the ignorant masses. On the contrary, the payment of the indemnity is looked upon by them and represented to them by those in authority, as a further proof of foreign oppression, and thus may lead to violent uprisings in the future.

Disturbances of this character, and feelings which give rise to them, must be prejudicial to the interests of the merchant, as he seeks to extend the area of his trade, and to the missionary, as he endeavours to carry on his religious work.

## CHINA'S CURRENCY.

The second Article of the Treaty of Shanghai—the ratifications of which have to be exchanged on or before the 5th of next September—lays down that China shall take steps to provide a uniform national coinage which shall be legal tender throughout the empire. Plainly the object of the Article is to correct the anomaly and inconvenience resulting from the fact that the so-called unit of currency in China, namely, the tael, has a different value in almost every province. But some people are disposed to read into the treaty a stipulation that the new coinage shall be linked to gold by a fixed ratio, and that the ratio shall be preserved by limiting the supply of coins to the demands of trade.

It is refreshingly wonderful to find such theories gravely advanced. Probably the publicists responsible for the suggestion had in mind the silver subsidiary coins of England, which are arbitrarily made to circulate at a gold price far in excess of their intrinsic value. But the shilling or the half-crown retains its fictitious gold price solely because it can always be exchanged for gold at that price. If twenty shillings did not buy a sovereign, each of these silver tokens would at once fall to a fraction of its present value. There would be no corresponding means of maintaining the gold price of a Chinese tael. The idea of giving it a fictitious value by limiting the number of coins in circulation is wholly impractical. If China wants to have a currency stable in terms of gold, she must make its units such that they will be exchangeable for a fixed amount of gold at fixed ratio; in other words, she must adopt the gold standard. That is the one and only way. She is now unwittingly revenging herself upon the nations that have condemned her to pay a heavy indemnity, for the millions of silver taels that she has to hand over to them periodically, are the means of throwing a quantity of the white metal upon a market having no use for it, and the consequence is its inconvenient depreciation. By the time that the whole amount of 450 million taels plus interest has been absorbed by the Occident and Japan a great many merchants engaged in the Far Eastern trade will have new reason for cursing the Boxer outrages.—*J. pan Mail.*

## THE SUPPRESSION OF PIRACY.

A PRACTICAL SUGGESTION.

The frequent acts of piracy mentioned by the Hongkong correspondent of the *Times* as occurring between Hongkong and Canton deserve the immediate attention of the Foreign Office and Admiralty, writes the London correspondent of the *Manchester Guardian*. At Hongkong we maintain a large flotilla of destroyers and torpedo-boats, and they are constantly under way, doing quarterly trips or training stokers. Instead of being sent round the island of Hongkong they might just as well be sent towards Canton to give help when required. Thus a large part of the route would be patrolled, at any rate in the day-time, and the Foreign Office could call upon the Chinese to police the rest of the Canton River to Canton. The practice at Hongkong is to keep one torpedo-boat in readiness. This boat was called the "ready boat," but as on the news of an act of piracy she would take three hours to get up steam she cannot be said to have been particularly ready.

## MANCHESTER MARKET REPORT.

In a Manchester market report for November appears the following:—With regard to China and the Straits, all business is absolutely at a standstill. The last fall of silver and exchanges has thoroughly demoralised both these markets. In China goods are very strongly held by such large importers that there is no fear of any disasters, as far as we can ascertain, but things in the Straits are on a different footing. Failures in the bazaars have been plentiful, and more are expected, and it is quite likely that a few of the European houses have been harder hit than they would care to admit. Business in the Philippine Islands has also been dead owing to the plague and the utter destitution of the population, and goods which have been purchased for that market and held out there cannot be realised for even half the invoice value.
